Teachers With Cameras

Teachers from around the country share photos of their classrooms, activities, and memorable moments. To submit your photos, see our [guidelines](#).

November 28, 2007

Subject Fusion

University of Houston-Downtown's START Summer Program is a blend of math and science curricula designed to encourage participation in the subjects. 9th to 12th grade Houston-area students spend three weeks attending classes, creating projects and taking field trips.

CHEMSTART Students displaying their city-building project

Field trip to Sea Center Texas

Showing a snake skin during a field trip to the wetlands

Nature hike in the Gulf Coast Bird Observatory

BIOSTART group

- Jon M. Aoki, Ed.D., assistant professor, department of Natural Sciences, Univ. of Houston-Downtown, Houston, Texas
