

VPN Client – Version 4.0.4 for Faculty & Staff - Windows

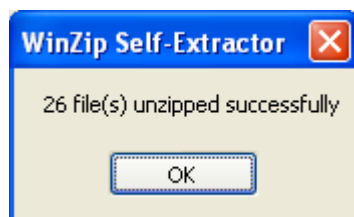

1. To download the latest version of VPN, visit: www.uhd.edu/wireless
2. Locate the VPN download section, click on the Download button in the Faculty & Staff section.
3. The File Download window will appear. Click **Open** to download the VPN client onto your PC.

4. Click **Unzip** to unzip the executable files onto a temporary folder on your system. The files will be saved to your hard drive at the following locations – **c:\temp\VPN\UHD_VPN_Client**

5. Once the all files have been successfully unzipped Click **OK** and **close** the WinZip Self-Extractor window.

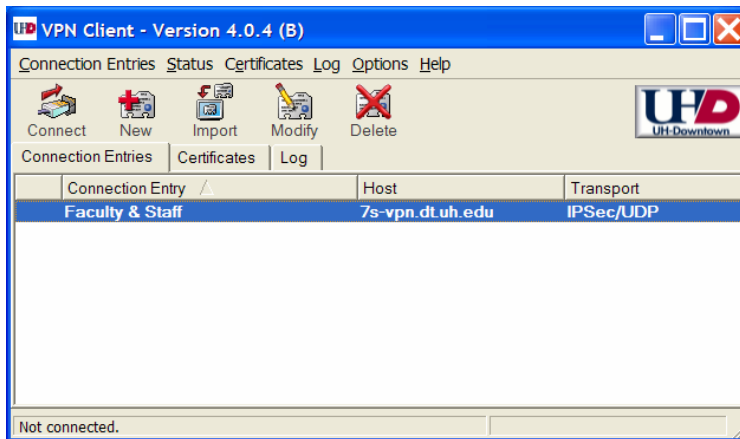

NOTE: Before proceeding, exit all applications; your PC will reboot on its own once the automatic installation has completed.

6. Go to **c:\temp\VPN\UHD_VPN_Client**, locate the file **InstallClient.bat**. Once you have located this file, double click the file. This will begin the automated installation of VPN client onto your PC.

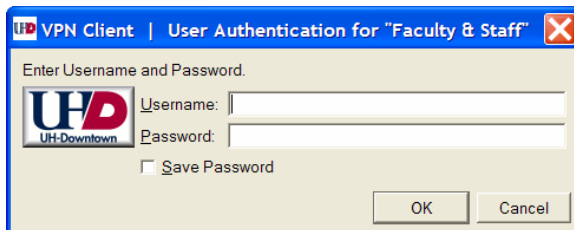

InstallClient

7. Once your PC has rebooted go to **Start/All Programs/UH-Downtown VPN Client/VPN Client**. Select the Connection Entry named **Faculty & Staff** and click **Connect**.

8. The **VPN Client | User Authentication for "Faculty & Staff"** appears. Type in your **username** and **password** and click **OK**.

Once you have connected the icon below will appear in your task bar. To disconnect, right click the UHD Icon and select **Disconnect**.
