Snapshots of Retention and Graduation of First Year in College students (FTICs) at UHD

Institutional Effectiveness, UHD
irp@uh.edu

What are the strongest predictors of 1-year Retention at UHD?

- Ethnicity (Hispanic)
- Gender (Female)
- High school rank
- Passing English 1301 (composition)
- Passing Math 1301 (college algebra)
- First term overall GPA (strongest predictor)
- Number of credit hours in first semester (second strongest predictor)

ENG 1301 and 1-Year Retention

Among students who took ENG1301 within the 1st year, those who passed were between 1.77 and 1.83 times more likely to be retained compared to their peers who did not pass.

2012 FT FTIC Cohort Status in Fall 2013

2012 FT FTIC Cohort: Where are Students Two Years Later

2013 FTIC Cohort: Where are Students 1.5 Years Later

Among students who took ENG1301 within the 1st year, those who passed were between 1.77 and 1.83 times more likely to be retained compared to their peers who did not pass.
What are the strongest predictors of 6-year Graduation Rates at UHD?

- Gender (females)
- First term GPA
- Total credit hours first semester
- Major (ISAE - interdisciplinary Studies Education)
- Passing Math 1301
- Total cost of degree
- Funding received

Credit Hours as Graduation Predictor

Students who maintained an average of 12 credits had the highest rate of retention.

Students who maintained an average of 12 credits had the highest rate of 6-year graduation.

Gender and Fulltime/Part-time Status as Graduation Predictors

Percentages represent total population categorized by gender or fulltime vs part time status and whether they graduated or not

First term GPA as Graduation Predictor

Bar chart shows % of students graduated based on GPA group.
