Mission Statement

The AACSB accredited College of Business provides reality-based education that enables a diverse* student body to advance intellectually, professionally, and financially. We create student-focused learning environments and engage in predominantly applied research that contributes to educational excellence, and business and industry practices.

- **Inclusivity:** tolerance of different points of view and actively eliciting and objectively evaluating input from all stakeholders to reach a shared outcome.

- **Innovation:** the skills and ability to produce new ideas and practices or improve existing ones.

- **Transparency:** the willingness to openly share and timely communicate decisions, policies and practices.
