BIOLOGY

Bachelor of Science in Biology

The bachelor of science in biology program provides a broad-based curriculum in the liberal arts, the natural sciences, and a broad set of courses relevant to biology. This degree program will help prepare you for various graduate or professional programs including doctoral programs in biological sciences and the health professions.

About the Program

The bachelor of science degree in biology is a 120 credit-hour program that is particularly appropriate for students interested in the following areas: dentistry, medicine and related fields, which require post-graduate study, public health, graduate work in biological or biomedical sciences, and science education.

With a B.S. in biology, students will be able to:

- Demonstrate basic knowledge of the discipline.
- Demonstrate understanding of the ethical standards for the responsible conduct of scientific research and its applications.
- Carry out independent project-based activity.
- Effectively use the scientific method and scientific reasoning both qualitatively and quantitatively.
- Work as part of a team.
- Demonstrate laboratory skills common to modern laboratories.
- Effectively communicate scientific information in writing and oral presentations.

Getting Started

1. Apply for Admissions
   applytexas.org

2. Apply for Financial Aid
   fafsa.ed.gov

3. Fulfill Testing Requirements
   uhd.edu/testing

4. Get Advised and Register
   uhd.edu/academics/advising

5. Pay for Classes
   uhd.edu/students-resources/cashiers

6. Prepare for Class

Affiliated Student Organizations

The Chemistry Club is for students interested in chemistry and polymers, and science in general. It also encourages students who wish to pursue doctoral or professional studies in related fields.

The American Medical Student Association (AMSA) is a student-governed, national organization committed to representing the concerns of physicians-in-training.

The Darwin & Leeuwenhoek Society is the UHD branch of the American Society for Microbiology (ASM).

The Environmental Club aims to raise awareness on environmental issues within UHD and the surrounding community.

The Health Professions Organization aims to assist healthcare bound students by providing volunteer opportunities and educational support.

Career Options

Many biology majors attend graduate school after completing a bachelor’s degree. Some eventually end up in a field directly related to their major. Graduates have found careers in a wide range of industries:
