

Schedule of Upper-Level Life-Sciences (BIOL, MBIO and SUST) Courses

Courses Offered Every Semester	
BIOL 4311	Biology Seminar
BIOL 4320	Cell Biology
BIOL 3306	Biological Evolution
MBIO 4311	Microbiology Seminar
SUST 4301	Seminar in Sustainability

Courses Offered Fall Semester	
BIOL 3305/3105	Human Anatomy and Lab
BIOL 3307/3107	Introduction to Neuroscience and Lab
BIOL 3304/3104	Developmental Biology and Lab
BIOL 3308	Cancer Biology
BIOL 3330/3130	Plant Biology and Lab
BIOL 4220	Introduction to Genomics and Bioinformatics
BIOL 4230	Adv. Lab. In Cell & Molecular
BIOL/CHEM/GEOL 4260	Environmental Laboratory and Field Studies
BIOL 4340	Animal Behavior
BIOL/CHEM 4344	Principles of Pharmacology and Toxicology
MBIO 3320	Virology
MBIO 3340	Environmental Microbiology
MBIO 4340/4140	Medical Microbiology and Lab

Courses Offered Spring Semesters	
BIOL 3340/3140	Biology of Fungi and Lab
BIOL 4303	Human Genetics
BIOL 3302/3102	General Ecology and Lab
BIOL 3310/3110	Plant Identification and Lab
BIOL 3320/3120	Human Physiology and Lab
BIOL 4232	Cell Biology Lab
BIOL 4310/4110	Histology and Lab
BIOL/MBIO 4313/4113	Parasitology and Lab
BIOL 4330	Molecular Biology
BIOL 4360	Environmental Biology
MBIO 4310	Microbial Biotechnology
MBIO 4320/4120	Immunology and Lab
MBIO 4330	Microbial Genetics
BIOL 4380	Field Experience in Biology
BIOL 4290	Special Topics in Wildlife Biology
