Keynote Presentation Title:
"Undergraduate Research and My Path to a Federal Research Facility"

Keynote Abstract:
Undergraduate participation in research programs is critical in enhancing the college experience for students, preparing them for post-baccalaureate education, and training undergraduates for careers in the workforce. In this talk, I will discuss my experiences as a student at the University of Houston-Downtown and how the research I conducted there assisted me in college, graduate school, and in my current "real world" job as a research chemist with the U.S. Department of Energy. I will also discuss, at both a very general and slightly more technical level, my current research program with the U.S. Department of Energy.

Acknowledgements

We are proud to have made this conference a campus-wide collaboration from the Colleges of Business, Humanities and Social Science, Public Service, and Sciences and Technology. It is a pleasure to recognize the many individuals, organizations, and institutions supporting UHD students in their research endeavors. These include the National Science Foundation (0336612), U.S. Army Research Office (W911NF-04-1-0024), U.S. Department of Education (P120A020069), U.S. Office of Naval Research (N0014-99-1-0950), Welch Foundation (BJ-0027), and UHD. We greatly appreciate Drs. Byron Christmas, Vicky Estrera, and Larry Spears, who are Principal Investigators for the above mentioned grants that generously fund this conference and the majority of on-campus research at UHD within the College of Sciences and Technology. Plus, we would like to thank The Coca-Cola Company for sponsoring refreshments for the conference.

Many of our students conducted their research during summer internships at collaborating institutions, including Baylor College of Medicine, NASA Johnson Space Center, Sam Houston State University, the UHD SA Summer Undergraduate Research Program (S.U.R.P.), University of Texas Medical Branch-Galveston, and the UT Health Science Center at Houston. Faculty and staff members of these and many other academic institutions, as well as personnel at industrial facilities, have done much to support and mentor our students. In addition, we thank the UHD faculty and staff who have worked tirelessly to support undergraduate research experiences, as well as the SRC Planning Committee, and university administrators who have helped make this a successful event. We especially thank UHD President Dr. Max Castillo and Dean George Pincus of the College of Sciences and Technology.
