

Center for Math & Statistics Support

Math & Statistics Support

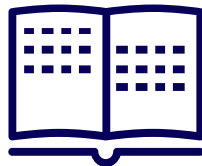

The C4MS² is leading the way in online and in-person tutoring. We offer excellent math and statistics tutoring to all UHD students.

Digital Tools

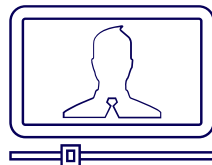

Math tutors are using tablets and online resources to assist with the tutoring process. Additionally, students can schedule tutoring appointments in EAB Navigate.

Resource Generation

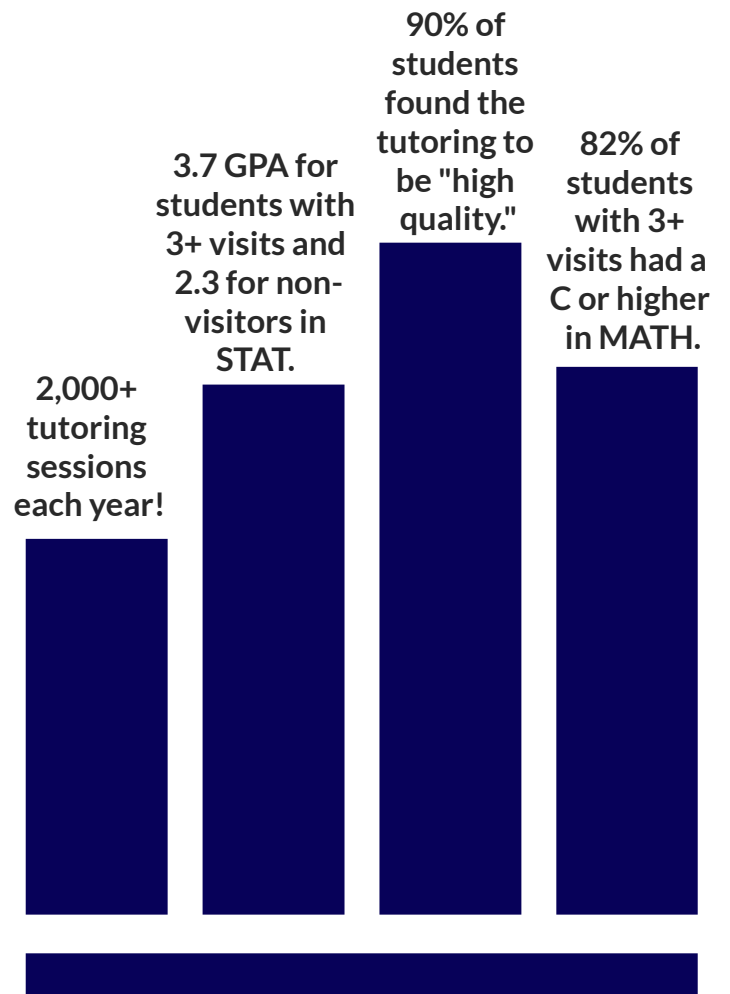

One focal point for the C4MS² is the generation of online resources for students. We continue to add to our online library of math materials.

Invite & Collaborate

Our tutors would love to visit your classes and promote our services to your students directly. Please contact Dr. Joseph Cunningham at cunninghamj@uhd.edu to set up a presentation.
