

# Fall

## 2020

Center for Math & Statistics Support

## Online Math & Stats Support

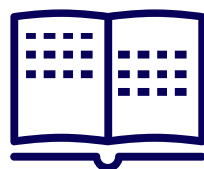

The C4MS<sup>2</sup> is leading the way in online tutoring. After transitioning completely online mid-spring, we are prepared to offer excellent online math and statistics tutoring to UHD students in Fall 2020.

## New Tools

Math tutors have been using tablets to assist with the tutoring process. Additionally, we will continue to schedule and record appointments in EAB Navigate this fall.

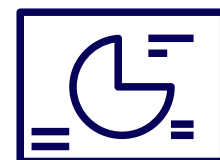

## Resource Generation

One focal point for the C4MS<sup>2</sup> will be more generation of online resources for students. We already have a library of math tutorials on our website, which we hope grow this year!

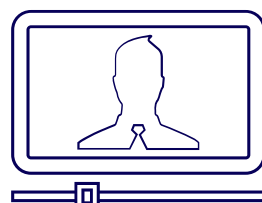

## Data

- C4MS<sup>2</sup> visits increased 16% compared to last year
- Avg. targeted math course participation was 38%
- 78% of C4MS<sup>2</sup> users received an C or higher in MATH 1301 (vs 52% non-users)
- 94% of surveyed C4MS<sup>2</sup> users found the tutoring to be "high quality"

## Invite & Collaborate

I would love to visit your classes and promote our services to your students directly. Please contact me to set up a virtual presentation.
