

UHD Capital and Controlled Assets

UHD will tag and inventory capital assets valued at or greater than \$5,000. UHD will also tag and inventory state designated controlled assets, valued from \$500.00 to \$4,999.99.

Since all departments are creating and entering their own purchase orders and purchase vouchers in the PeopleSoft AP system, it is important that the correct PeopleSoft account code is used when purchasing assets that are considered capital or controlled.

Below is a list outlining the most commonly used assets, and how they should be coded on your purchase orders and purchase vouchers. If the list is not clear, or if you have any questions on which account code to use, please call Paul Tichenor in Property Accounting, x8450.
