

# Aflac isn't health insurance. Let us show you how we can help

## Cancer

While 1-in-2 men and 1-in-3 women will get cancer in their lifetimes,<sup>1</sup> more and more Americans are living with cancer as a manageable disease. Today, 89% of women who are diagnosed with breast cancer will survive it and 98% of men who develop prostate cancer will live with it for five years—or more.<sup>2</sup> That's why we think everyone should have a plan for how to manage the disease if they're diagnosed.

- Initial Diagnosis Up to \$6,000
- Building Benefit \$500 per year
- Treatment Benefit Up to \$1,500 a month
- Hospital Confinement Up to \$300 a day
- Wellness Benefit Up to \$100 per person covered per year

Aflac Choice allows you to customize benefits based on your customer's unique needs. With a simplified base plan and three available riders, policyholders can get the benefits they need and leave the ones they don't. No one should have to stress about the impact hospital-related visits have on everyday life, so make sure your policyholders aren't forced to choose between paying for medical bills or paying for their everyday needs.

- Initial Hospitalization \$1,000
- Daily Confinement \$100 a day up to a year
