1. PURPOSE

Branding is a key element of establishing an organization in the marketplace and differentiating it from its competition. A powerful brand can establish trust and credibility, and illicit loyalty from satisfied customers. Key elements of branding include logo, tagline, color palette, marketing materials, letterhead, signage, messaging and other tangible representations of a company. The University of Houston-Downtown brand and adherence to its components and guidelines will ensure consistency and recognition of the brand. Recognition of the greater University brand benefits each of its programs and key segments independently and promotes a strong brand identity. This policy defines the rules and procedures set forth by the Vice President of Advancement and University Relations, as approved by the President, for the use of the brand by all divisions, departments, and business units on campus.
