Driving and Traffic Safety Program
INTRODUCTION

This document outlines the policies covering the use of motor vehicles owned, leased, or rented by the University of Houston Downtown for business purposes. Motor vehicle means any motor vehicle, including highway vehicles, forklifts and boom lifts driven by a University of Houston Downtown (hereafter, the University) employee while conducting authorized business regardless of whether the motor vehicle is owned by the University, privately owned by a university employee or third party or a rental vehicle.

AUTHORIZATION

This program complies with the State Office of Risk Management (SORM) guidelines for Texas State Agencies, otherwise known as RMTSA. The RMTSA requires a Traffic Safety Program per Volume III, Sect. 2, Ch. 6.13. This plan serves to merge the Traffic Safety Program with associated University of Houston Systems Administrative Memorandums, associated University of Houston Downtown Policy Statements and Accident Prevention and Safety aspects of the Fleet Safety Program contained in Vol. II, Sect. 2 of the RMTSA that the University of Houston-Downtown falls under authority of.

The management and upkeep of fleet vehicles is addressed separately by UH SAM 03.E.07 - Fleet Management Plan (PDF), which is managed by the Director of University Business Services. A separate policy also describes the requirements of Travel by Students to university funded activities, as required by UH SAM 03.E.08 (PDF).

USE OF SYSTEM OWNED AND LEASED VEHICLES

A. Only persons authorized by the University may drive vehicles owned or leased by the University of Houston System. Vehicles may be used for component university business only, except if specifically authorized otherwise. In accordance with statute and the University’s fleet management program, no employee shall use any state-owned vehicle
except on official university business. Authorized persons are responsible for complying with the policies set forth in this document.

B. Where vehicles are allowed for personal use, costs associated with personal use shall be reported as income, in accordance with Internal Revenue Service regulations and System Administrative Memorandum 03.D.06, Taxable Fringe Benefits (PDF).

C. Authorization of drivers shall, in most cases, be restricted to component university employees, except in those cases where students or spouses may be authorized for limited use of certain vehicles.

D. Motor vehicle records (MVR) shall be checked prior to extending an offer of employment to anyone required to operate a component university owned or leased vehicle and annually thereafter for anyone authorized to operate a vehicle that is owned or leased by the component university.

E. Completion of a three hour Defensive Driving Course (DDC) at least once every two years is required for Facilities Management, Police Department and University Business Services employees who regularly drive on university business. The course will be offered at no cost to the employee on pre-scheduled dates by the University. Employees may also take the course with any other Texas Education Agency (TEA) constituent to satisfy the course requirement, but must do so at their own expense if they do not attend one offered by the University.

F. Authorized employees shall have a Blanket Travel Authorization approved for the fiscal year for their vehicle allowance so they may be reimbursed for vehicle costs and/or mileage incurred while on university business. Mileage for each day and/or event must be recorded.

G. Forklift and boom lift drivers must complete an approved training program and pass the written test in order to be certified to drive a forklift or boom lift. Recertification is required every three years. Scissor lift drivers also must attend an approved training program to be a competent operator. Retraining is mandatory if there is any accident involving a forklift or scissor lift. The training is offered by Facilities
GENERAL POLICY REQUIREMENTS

A. APPROVED DRIVERS - Employees who operate university owned, leased or rented motor vehicles while conducting university authorized business shall be on the University’s Approved Drivers List.

To avoid non-compliance, Department Managers are expected to:

1. Identify employees reasonably expected to drive a university motor vehicle on university business one or more times per year.
2. Provide a list of those employees to Employment Services and Operations.
3. Ensure only those employees on the approved drivers list drive a university motor vehicle.

No new employee of the University, subject to the provisions of 02.A.16 - Motor Vehicle Record Evaluation Policy shall operate a university vehicle in the conduct of university business until a Motor Vehicle Report (MVR) has been completed and authorization has been obtained.

All job vacancies involving authorized university driving will be posted to note that a valid driver’s license and a satisfactory driving record are a condition of employment.

B. AUTHORIZED BUSINESS - Activities directly connected with university business as well as personal activities, such as meals, and maintenance of university vehicles, so long as those activities are directly associated with university business. Authorized business also includes those situations where it is necessary to use a motor vehicle for emergency purposes, e.g., unexpected injury or illness. It may include the use of motor vehicles for reasonable personal activities while on authorized business, such as for evening activities while out of town on university business.
The use of a university-owned or university-rented motor vehicle for purposes other than performing or carrying out authorized business is not allowed.

C. **DEFENSIVE DRIVING COURSE** –

1. Of the Approved Driver’s list, Facilities Management, Police Department and University Business Services employees who regularly drive on university business are required to attend a three hour Safe Driving course, which will be offered by the University at least once every two years.

2. The course(s) offered by the University may be used for university insurance purposes only, and cannot be used for off-campus ticket dismissal, as UHD courses are not TEA accredited. However, the course(s) offered by the University may be able to be used for discounts on employee’s personal automobile insurance (confirm with your insurance agent). Employee’s electing to take the class offered by the University, when not required by this driving policy, must do so on personal time (vacation hours).

D. **CONDITIONS OF DRIVING** - Employees of the University shall exercise the normally prudent care in operating a motor vehicle while performing authorized business.

Employees who operate motor vehicles while conducting authorized business are required to follow the [Vehicle Operation Requirements](#) set forth in this document and follow all state traffic safety laws.

Employees shall report, within one business day, to their Department Manager any moving vehicle mishaps while on authorized business ([see Operation of Motor Vehicles in Connection with Employment](#)). Likewise, any revocation or suspension of a driver’s license shall be reported no later than the next business day.

Employees who are authorized drivers must be knowledgeable regarding the requirements and guidelines set forth in this policy.
Violation of this policy, including improper use of a motor vehicle or failure to maintain a satisfactory driving record as determined by the University, shall result in the removal of the employee from the approved drivers list and may subject the employee to disciplinary action, which may include termination. **Nothing in this policy changes or limits the employment at-will status of an employee and the University’s right to terminate an employee at any time.**

**OPERATION OF MOTOR VEHICLES IN CONNECTION WITH EMPLOYMENT**

**A. POLICY**

No employee, potential employee, student or volunteer is allowed to operate a university-owned or leased vehicle until a Motor Vehicle Report (MVR) has been completed and authorization has been obtained.

Motor Vehicle Record (MVR) checks are to be conducted annually by Employment Services and Operations (ESO) on those employees whose jobs require driving a university-owned or leased vehicle as an essential part of their job, and on those employees who have used fleet vehicles during the previous year.

MVR’s may be requested more frequently on employees with accidents or moving violations reported on their MVR.

[Motor Vehicle Record Evaluation Request](#) (PDF)

The standards for determining whether a person can be granted driving privileges are as follows:

Acceptable Driver

- Valid Texas Driver’s license
- No at-fault accidents within the past three (3) years
- Fewer than two moving violation convictions within the past three years
Probationary Driver

- Valid Texas Driver’s license
- No more than one at-fault accident within the past three years
- No more than two moving violation convictions within the past three years

Drivers classified as “Probationary” are required to complete a defensive driving course within 60 days of receiving notice from ESO of such probationary status, and prior to being authorized to operate a university-owned or leased vehicle.

- The cost of the defensive driving course must be paid by the employee.
- The defensive driving course must be taken on the employee’s own time.
- Employees may not operate a university-owned or leased vehicle until proof of successfully completing a defensive driving course is submitted to ESO.
- MVR’s will be conducted on Probationary drivers every six months for a period of two years

Unacceptable Driver

- Any conviction for driving while intoxicated (DWI), driving under the influence of drugs (DUI), driving under revocation, involuntary manslaughter, hit and run, felony with a vehicle, or vehicular homicide
- Three (3) or more moving violations within the past three years or; two or more at fault accidents within the past three years
- No valid driver’s license

B. PROCEDURES

The employee, potential employee, student or volunteer completes the Motor Vehicle Record Evaluation Request form (PDF) at least 48 hours before needing to drive a university-owned or leased vehicle.
The Motor Vehicle Record Evaluation Request form is forwarded to ESO. ESO is responsible for processing the background check.

Following the guidelines specified on paragraph 3.3 above, the VPESO and Chief of Police will evaluate MVR reports and determine an employee, potential employee, student or volunteer as:

- Acceptable Driver
- Probationary Driver
- Unacceptable Driver

ESO contacts the supervisor with the results of the MVR verification and files the original MVR for one year.

ESO is responsible for running MVR’s every six months for a period of two years on those drivers classified as “Probationary”.

Supervisors are responsible for assuring that “Probationary” drivers have successfully completed a defensive driving course and forwarding proof to ESO.

Current employees transferring to a position which requires operation of a university-owned or leased vehicle are required to complete an MVR.

The cost for running an MVR is charged to the department for which the employee, potential employee, student or volunteer will be driving.

ESO is responsible for requesting MVR’s every August for those employees whose jobs require driving a university-owned or leased vehicle as an essential part of their job and on those employees who have used fleet vehicles during the fiscal year.

ESO is responsible for processing requests from department managers for exceptions to the UHD MVR Evaluation Policy acceptability criteria and reporting all exceptions granted, along with the rationale for each such granted exception, to the UH System Director of Risk Management on a quarterly basis, in compliance with SAM 01.C.13.

VEHICLE OPERATION REQUIREMENTS

A. An employee is required to exercise the normally prudent care demanded by the road, weather, light, and all other prevailing driving conditions.

B. Drivers of motor vehicles are responsible for knowing and complying with Texas motor vehicle and driver licensing laws and rules, and operate in compliance with the common “rules of the road”, regardless of whether vehicles are operated on sidewalks or roadways.

C. Drivers should conduct a pre-trip inspection on the vehicle for conditions that could cause hazardous driving, including the exterior, interior, and mechanical system. For extensive trips or out of town destinations, an inspection form is included in Appendix A to help conduct with a more thorough inspection, including items the driver should inspect versus those that the loaning department or rental car company should inspect. Items recommended for an Emergency Kit are also included.

D. Vehicles shall be operated in a manner that does not interfere with normal pedestrian or vehicular traffic flow on roadways, sidewalks, and ramps. Pedestrians shall be afforded the right-of-way and utmost courtesy at all times.

E. No employee shall operate a motor vehicle who does not have a valid Texas driver’s license and who is not on the approved drivers list. An employee must carry a valid Texas driver’s license while operating a motor vehicle.

F. Commercial Driver’s Licenses will be required according to the Texas Department of Public Safety for the following vehicles:

   1. Has a gross combination weight or a gross combination weight rating of 26,001 or more pounds, including a towed unit with a gross vehicle weight or a gross vehicle weight rating of more than 10,000 pounds

   2. Has a gross vehicle weight or a gross vehicle weight rating of 26,001 or more pounds
3. Is designed to transport 16 or more passengers, including the driver

4. Is transporting hazardous materials and is required to be placarded under 49 C.F.R. Part 172, Subpart F

G. The driver and all passengers shall wear safety belts whenever operating/traveling in a motor vehicle.

H. University-owned or rented vehicles are to be used for authorized university business only.

I. Rental of 15 passenger vans are not allowed due to USDOT rollover reports and tendencies for rollovers. Alternative rental vehicles include 15 passenger (including the driver) buses which are more stable, some of which may be available without a commercial driver’s license.

J. The carrying of firearms is prohibited, with the exception of peace officers.

K. Carrying or consumption of alcoholic beverages or illegal drugs is prohibited, with the exception of peace officers transporting alcoholic beverages or illegal drugs for official business. Employees shall adhere to Texas Department of Public Safety laws regarding alcohol consumption.

L. No employee shall operate a motor vehicle while under the influence of any drug or medication which may tend to degrade a person’s ability to operate a motor vehicle in a safe and prudent manner.

M. Non-university personnel shall not ride in a university-owned or rented vehicle unless the person’s presence is directly related to the immediate conduct of university business or has been specifically approved by the appropriate vice president.

N. All privately-owned motor vehicles used by employees to conduct university business shall have a current motor vehicle inspection sticker, a valid license plate and shall have
liability insurance in effect that meets or exceeds the minimum coverage required by state law. It is the responsibility of the vehicle owner to meet these state requirements.

O. The University will not pay any citations incurred by an employee.

P. Employees are responsible for the security of the vehicle while the vehicle is provided to them.

Q. Pedestrians (includes those utilizing wheelchairs or other mobility assistance)

1. Vehicles shall be operated with the utmost courtesy, care, and consideration for the safety and convenience of pedestrians.

2. Pedestrians shall be afforded the right-of-way at all times.

3. Operators must account for the fact that a pedestrian may be physically impaired and unable to hear or see the motor vehicle, or unable to move quickly.

4. Operators must reduce speeds in heavy pedestrian traffic or stop until the traffic has lessened.

5. Operators must never attempt to get pedestrians out of their way by intimidating them to step off the sidewalk or by use of the vehicle horn.

6. Whenever an operator feels he/she cannot predict the actions of a pedestrian or other vehicle operator, he/she must come to a complete stop before proceeding.

R. Employees shall provide timely notification of safety and maintenance concerns to the Fleet Manager.

S. Cargo

1. Vehicles equipped with a cargo bed or ladder rack shall not be overloaded. Overloading decreases maneuverability and safe operation.
2. Materials and equipment shall be loaded so they will not cause a hazard by shifting or falling off.

3. Top heavy equipment is especially dangerous and should be secured near the center of the Vehicle to avoid tipping. Be extremely careful during turning maneuvers.

4. Loads must not extend beyond the front or sides of the body of the vehicle.

5. Loads that extend more than three feet from the rear of the vehicle must be flagged with a brightly colored material, usually red or orange.

**POLICY FOR USE OF VEHICLES RENTED OR LEASED BY THE EMPLOYEE FOR UNIVERSITY BUSINESS**

A. The State Comptroller’s Office contracts with car rental agents for use by employees conducting business away from their primary business location. Most rates include unlimited free mileage within the state of rental, free Loss Damage Waiver and free primary liability coverage. Component university employees are required to use a state-contracted car rental agent if that vendor can provide the type vehicle required in the needed location. An exception may be allowed when a less expensive rate for the same vehicle and coverage can be obtained from a non-state contracted vendor (the Loss Damage Waiver and primary liability coverage must be purchased).

B. A vehicle shall be rented or leased in the name of any component of the University of Houston System only if its use is for component university business.

**POLICY FOR USE OF PERSONAL VEHICLES**
A. An employee may be reimbursed for mileage at the official state rate when a personal vehicle is used for component university business whether local or outside the component university area. Mileage reimbursement for local, intercity mileage or mileage to/from a local airport is not available for those employees receiving automobile allowances. However, mileage reimbursement is available to employees who receive an automobile allowance when they drive their personal vehicle to destinations that are more than 100 miles from their component university office to conduct component university-related business. The state mileage reimbursement rate takes into account gasoline costs, wear and tear on the vehicle, maintenance and insurance.

B. The employee’s personal insurance is expected to cover driver liability, comprehensive and collision damage to the vehicle. Because of this exposure, component university employees are encouraged to use vehicles that are owned, leased or rented by the component university, rather than personal vehicles for component university business.

1. Should the employee’s insurance carrier deny coverage or should any legal actions by a third party exceed the primary liability limit, the component university’s automobile coverage will provide excess liability protection.

2. The component university’s automobile insurance does not provide comprehensive or collision coverage for an employee’s personal vehicle.

INSURANCE COVERAGE FOR AUTHORIZED DRIVERS

A. Automobile liability coverage is provided for authorized drivers of component university-owned or leased vehicles. Details on coverage and limits may be obtained from the UHD Director of Risk Management and Compliance.

B. When a System employee rents a vehicle or uses his/her personal vehicle while traveling in the course and scope of employment and the proper Travel Request (or other documentation that substantiates business purpose) is provided, component university
coverage includes component university liability and workers’ compensation. When renting vehicles while traveling on component university business, the employee should purchase the optional liability and physical damage coverage offered by the rental car company if this coverage is not already included in the base rate. Vehicles rented from state-contracted vendors usually include liability and physical damage coverage in the base rate, so it is normally not necessary to purchase this coverage when using state-contracted rental car companies. Information about state-contracted rental car companies is available on the Comptroller’s web site:

http://comptroller.texas.gov/procurement/prog/stmp/stmp-rental-car-contract/

C. Component university employees while on official component university business are covered for bodily injuries by Workers’ Compensation insurance, administered through the State Office of Risk Management.

D. The component university is not responsible for damage or loss of personal property in rental vehicles or component university-owned or leased vehicles.

RESPONSIBILITIES IN THE EVENT OF A MOTOR VEHICLE ACCIDENT INVOLVING AN EMPLOYEE WHILE ON UNIVERSITY BUSINESS

A. Employee’s Responsibilities at the Scene

1. Stop the vehicle immediately, avoiding obstruction to normal flow of traffic. Place appropriate warning signs or lights, if available, to prevent additional accidents or damage.

2. If you can do so safely, render aid and assistance to any injured persons. Request medical assistance from police, firemen, or EMS technicians. The driver of any vehicle involved in an accident resulting in injury or death is required by law to
render reasonable assistance to an injured person, which includes making arrangements for or carrying the injured person to treatment facility.

3. Notify the proper law enforcement agency having jurisdiction at the place of the accident. If the accident or loss occurs on university property, the component university campus police should be contacted immediately.

   a) City Police Department within an incorporated city
   b) County Sheriff Department outside city limits
   c) Texas Department of Public Safety on highways or rural areas

4. Comply with all state laws regarding motor vehicle accident reporting and investigation. (See Appendix E.)

5. Make no statements concerning fault or responsibility for the accident and engage in no arguments. Do not sign any waiver concerning the accident. Assist law enforcement personnel in their investigation, but do not speculate about what happened. If you do not know or are unsure of the answer to any question, state you do not know. State the facts clearly and objectively, with no false, subjective or misleading statements.

6. Obtain the names, telephone numbers, and addresses of the drivers of all other vehicles involved in the accident. Also obtain their driver’s license number, license plate number and the name, address and phone number for their insurance carrier.

7. Obtain the names, addresses and telephone numbers of witnesses, if possible.

8. If a camera is available, obtain photographs of all vehicles, showing the condition and damage of each vehicle.

9. If not injured, remain at the scene until the investigation is completed or until released by law enforcement personnel at the scene.

2. An employee needs to be prepared to provide the following information to the Risk Management & Compliance Department during notification:
   a) Time and location of the accident.
   b) Other occupants in employee’s motor vehicle.
   c) License plate/serial number of employee’s motor vehicle.

The employee must submit the motor vehicle accident report, along with any photographs or film to the UHD Risk Management & Compliance Department within 24 hours after a motor vehicle accident has occurred.

4. ESO’s Workers’ Compensation Claims Coordinator will complete the Employer’s First Report of Injury or Illness (Form TWCC-1S) according to the applicable rules and instructions contained in the Claims Coordinator Handbook for all motor vehicle accidents which occur during the course and scope of employment and result in an employee injury.

5. The employee is also responsible for filing the accident report with the appropriate law enforcement authority, as applicable, and for complying with any other requirements of state law relating to drivers involved in a motor vehicle accident. If an accident is not investigated by a law enforcement officer and the accident resulted in injury or death or an extent of at least $1,000, the driver of the vehicle must forward a written report of the accident to the Texas DPS within ten days after the accident. (Reference TX DOT form CR-2 (PDF)

The employee shall provide any other information relating to the accident as requested by the Risk Management & Compliance Department.

C. Department Manager and/or Risk Management & Compliance Department Responsibilities - Upon notification that an employee is involved in an accident, the Department Manager of the employee and/or the Risk Management & Compliance Department shall:

1. Take all necessary action to protect the health and welfare of the University personnel involved in the accident.

2. Take necessary steps to protect university property involved in the accident.

3. Ensure that a complete investigation of the accident has been made. Assist the employee in meeting all of his/her responsibilities regarding the accident.
4. Inform ESO of the accident for record keeping purposes and ensure the completed accident report is given to ESO/UHS Risk Management as appropriate. Third party claims information is included below in Accident Investigation and Reports – Section B.

ACCIDENT INVESTIGATION AND REPORTS

This section applies to motor vehicle accidents involving employees while on university business whether involving university owned or leased vehicles, personal vehicles or rental cars.

A. Risk Management & Compliance Department Responsibilities

1. The UHD Risk Management & Compliance Department shall inform the UH System’s Risk Management Department as soon as possible after the accident.

2. Upon receipt of a completed vehicle accident report, the Risk Management & Compliance Department shall review Accident form and other documents for completeness of information and accident review.

3. Accident review shall be conducted by the Police Department to determine the cause of the accident and whether there was anything the driver could have reasonably done or anticipated that would have prevented the occurrence.

4. Accident review may generate one or more of the following recommendations:

   a) A cautionary letter
   b) Enrollment in a defensive driving course
   c) Restricted use of a component university vehicle
   d) Attendance in traffic court with written report of proceedings
   e) Assessment of part or all damage cost to university property
f) Transfer to a non-driving assignment

g) Other disciplinary action, up to and including dismissal

If the accident review recommendations result in any personnel disciplinary action, university officials will follow established policies and procedures pertaining to that type of personnel action.

B. Coordination of Accident Investigation of Third Party Claims

1. The UHD Risk Manager shall coordinate information regarding third party claims and provide the information to the University of Houston System Risk Management Department (UHSRM), who in turn will work with the Office of General Counsel to investigate and process the claim. The Risk Manager shall be responsible for receiving accident reports from the Department Manager of an employee involved in a motor vehicle accident and forwarding all accident-related information to UHSRM.

2. Requests for payment of damages by third parties involved in an accident with a motor vehicle shall be filed with the UHD Risk Manager. A Department Manager receiving such a request shall forward it to the UHD Risk Manager. The UHD Risk Manager will then provide information on requirements and procedures for filing a claim.

3. Accident investigation information should be compiled and maintained by the Risk Management & Compliance Department. This information should be analyzed to determine frequency and severity of various types of accidents and other statistical information that may be beneficial to agency management.
