3. Scroll down to the **Show Test Results and Feedback to Students** area. Select what feedback displays upon completion of the test.

**NOTES:** Feedback options may be changed once the test has been given.

You can set one or two rules using the drop-down lists. You *cannot* choose some rules in combination. After you select a rule in the first drop-down list, some may not appear in the second drop-down list.

4. You must make a selection. Set when appropriate test results and feedback are shown to students:
  - a. After Submission: This is the default option.
  - b. One-time View: After students submit their tests or surveys, the selected results and feedback options are in effect for students to view ONCE.
  - c. On Specific Date: View results and feedback after the selected date and time.
  - d. After Due Date
  - e. After Availability and End Date
  - f. After Attempts are graded: After all students submit the test, *and all attempts are graded*, results are made available. If one or more students do not submit an attempt, you must assign a grade of 0 so that all students can view the chosen results and feedback.
