

Photos Walkthrough

The 'Photos' module allows every portal to store unlimited amounts of photos and albums. To access the 'Photos' module, select it along your portal's top toolbar.

Photos

Create a New Album

SGA Student Leadership Summit 2014
(15 Photos)

Red Cross Campus Wide Blood Drive
(21 Photos)

Class of 2019 Orientation (11 Photos)

Org Registration on the South Lawn (11 Photos)

The first thing you'll see when accessing the 'Photos' module is your existing albums as well as any being shared down by the umbrella. Select an album to see the gallery and click on a specific picture to view additional options. When viewing an individual picture, clicking an image will take you to the next photo in the gallery. You can also tag people, make comments, or [share](#) the photo. To see a high-resolution version of the photo, locate the 'View Full Size' option in the bottom right of the page.

As an administrator, you can create new photo albums and edit existing ones. To begin, locate the 'Create an Album' button on the default 'Photos' page. The option to add photos will appear in the same spot after you select an album. GatorSync's photo uploader allows you to select several images at once. The maximum file size for each photo is 10 MB. After selecting an image, you will be provided a caption box and the ability to tag people. Click 'Update Information' to save your changes.

If you have any questions or comments regarding the steps outlined in this document, please contact UHD TLS Training Services by calling (713) 221-8200, or by sending an email to ttlctraining@uhd.edu.
