CoogPlan Homepage

- CoogPlan takes you to Task list (data entry forms)
- Explore takes you to reports

My Task List: You will see 5 Folders:

1. Budget Cycle Activities
2. Budget Cycle Inquiries
3. View Historical Data
4. UH Budget Reference Materials
5. COOGPLAN Tableau Reports

Budget Cycle Activities

<http://www.uh.edu/administration-finance/budget-office/training/how-to-navigate-the-search-and-enter-budgets-form.mp4>

1. **Budget Cycle Activities:** A task list where you will find your assignments. On this page you will also have the option to navigate to your entry forms.

Under **Budget Cycle Activities** you will see three search and entry forms:

- A. Search and Enter Budgets
- B. Search for Positions or Employees
- C. Position Maintenance

- A. **Search and Enter Budgets:** On this page you will see all current cost centers that you have access to. You can also choose to view one cost center at a time using a member selection (Chartfield) such as by *DEPARTMENT*, by *FUND* or by *PROGRAM*. Budget can also be updated from white cell column on PROPOSED fiscal year.

(NOTE: Report available to view cost center with the Modified date 09/01/YY (Current FY). Report displays all the cost centers that are active and have no dollar amount. Further discussed in Budget Reference Material.

*** **HOME DEPARTMENT** section allows user to see where position is housed (also helpful for split funded positions).

NOTE: If this is a salary cost center that is currently active and contains employees you will have the option to edit positions or employee information from the *Cost Center Summary Form*.

- To **Edit Employee Information** right click on the employee you wish to edit. Once again you will get a drop down menu where you will see *EDIT EMPLOYEE JOB INFORMATION*. This will be further discussed in **Search for Position or Employees** section (B).
- To **Edit Position Information** right click on POSITION member you wish to make changes to. You will get a drop down menu where you will see *EDIT POSITION INFORMATION*. This will be further discussed in **Position and Maintenance** section (C).
- [How to navigate the Search and Enter Budgets Form](#) - (How to Navigate search and enter Budget video link)

B. Search for Position or Employees: On this page you will see all employees under a particular area (college/division) with their present-day position. Using quick search you have the following options: *Search by Department*, *Search by Employee* and *Search by Position Number*.

Edit Position Information

Steps:

1. Right click on position number
2. Click Edit Position Information

This will take you to a form where you can see the funding source of a position along with the percentage allocation and FTE information.

- Here you can edit, add or remove a Funding Source
- Change Percentage Allocation

The screenshot shows the 'Task List Status' form with the 'Position Maintenance' tab selected. The 'Edit Position Funding' section displays a table with columns for 'Current', 'Base', and 'Proposed' funding. A right-click context menu is open over the 'Percentage Allocation' column, showing options: 'Add Funding Source', 'Change Funding Source', 'Remove Funding Source', 'Add Group CC Funding Source', 'Change Funding Source to Group CC', and 'View Cost Center Summary'. The 'Add Funding Source' option is highlighted in yellow.

3. Right click on Percentage Allocation
4. Click on Add Funding Source from Percentage Allocation cell (base/proposed)

The screenshot shows the 'Runtime Prompts - Add Funding Source' dialog box. It has three fields: 'Entity Department' (PFE), 'Fund' (FC_2064), and 'Program Code' (PR_730). The 'Fund' field is highlighted with a red circle. At the bottom right, the 'Launch' button is also highlighted with a red circle.

5. Add or Edit funding source
6. Click LAUNCH

The screenshot shows the 'Task List Status' form with the 'Position Maintenance' tab selected. The 'Edit Position Funding' section displays a table with columns for 'Current', 'Base', and 'Proposed' funding. The 'Proposed' row now includes a new funding source for 'Input H0406_L3 ENGINEERING PH' with a percentage allocation of 40.000 and an allocated job amount of 20,800.03.

7. Change the Percentage Allocation (remember overall percent allocation must equal 100%).
8. Press SAVE

- Change Funding Source to Group CC

Change Funding Source:

- Select Change Funding Source
- You will select appropriate Chartfield values (see screenshot below)
- Click on LAUNCH

Runtime Prompts - Change Funding Source

Prompt Text	Value
* Change Funding Dept to	"PFE_"
* Change Fund to	"FC_2063"
* Change Funding Program to	"PR_ 730"
* Old Funding Dept	"PFE_"
* Old Fund	"FC_2063"
* Old Funding Program	"PR_ 730"
* Version	"Proposed"

Launch **Cancel**

Remove a Funding Source:

- Select Remove Funding Source or Delete the value from the funding source that you want to delete
- SAVE

Add Group CC Funding Source:

- Select Add Group CC Funding Source
- Search for Group CC Dept. by clicking member selector Icon and select Department
- Once department is selected click on ADD (See screen shot below)
- Click Ok

- Search for Enter Group CC code by clicking member selector Icon and select appropriate Program
- Once Program is selected click on ADD (See screen shot below)
- Click Ok

- Then LAUNCH

- Once Group CC is added adjust your percentage accordingly

Change Funding Source to Group CC:

- Select Change Funding Source to Group CC

Prompt Text	Value
* Change Funding Dept to GroupCC Dept	"PFE_H0066"
* Change to Group CC Code	"PR_D0370_730"
* Old Funding Dept	"PFE_H0066"
* Old Fund	"FC_2064"
* Old Funding Program	"PR_D0370_730"

Launch Cancel

- Search for funding department to Group CC

Runtime Prompts - UHSChangeGroupCCAllocation

1.00					0.000%		
1.00					0.000%		

***"Sync" option will default the employee to reflect current data in HR.

On Position Funding section of Position Maintenance form, you can:

- Vacate a position
- Sync Employee Current HR information (only if information is already under HR PeopleSoft)

How to update PeopleSoft with the funding sources of the vacant positions in COOGLAN:

This applies **only** to funding sources in fund groups 1 through 4 for project NA cost centers, funding sources which are GroupCC will not be loaded back to PeopleSoft. Also, only Proposed funding sources get loaded back to PeopleSoft, and after the initial load of the budget data for the beginning of the budget cycle the Proposed funding sources need to be maintained manually by the department administrators. If a new position is created in HR during the middle of the budget cycle, then it will need to be manually added by the department administrator to the budget to put the funding sources into Base and Proposed using the Position Maintenance form and the "Add Position to Budget" option. **If a position loads to COOGLAN with job data but no funding sources at all, a Budget Officer will need to enter a starting funding source for the position to get it started;** once the first funding source is created in Base and Proposed, a department administrator can continue to add additional funding sources normally as they would for any other position.

- [Change History](#) - (How to View change history video link) - *To open the link press Ctrl and click on the blue font*

Budget Cycle Inquiries

2. **Budget Cycle Inquiries:** These forms are designed to give an overview of your budget and help you to determine if you are in balance.

NOTE: Budget Cycle Inquiries forms update every ten minutes.

A. Budget Balance Check:

- a. Budget Balance Check form provides a department summary by fund group with the ability to drill down (by right clicking on fund group and selecting Open Fund Group) all the way down to the program level of a cost center.
- b. You can expand on expenditure and revenue budget nodes to get a break down of your budget.
- c. To watch our training video click [here](#). *To open the link press Ctrl and click on the blue font*

Examples of how you can use form:

1. This form helps you verify that your budget balances:
 - a. By Fund Group
 - b. By Fund Code
 - c. By Cost Center
 - d. By Department
2. Use the balance column to verify central allocations as well as self-supported funds.

3. Use the interactive tool to find the trouble spots.

B. Budget vs Actuals Inquiry:

- On this form you can see your budget for Current and Proposed year vs Actuals (year to date), and commitments by budget node.
- It enables the end user to view information by department grouping, fund grouping and program grouping.
- This form will be available year round (as view only) to help you maintain your budget and have a better assessment for proposed year's financial plan.
- To watch our training video click [here](#).

	NACUBO	A	D	E	H	I
1	Student Access and Success	Instruction	Academic Support	Student Services	Scholarships & Fellowships	Auxiliary Enterprises
	NACUBO	B				
2	National Competitiveness	Research				
	NACUBO	F	G			
3	Infrastructure & Administration	Institutional Support	Physical Plant			
	NACUBO	C				
4	Community Advancement	Public Service				

C. Budget Inquiry by Strategic Initiatives

- Allows you to review budget by Strategic Initiatives by selecting Fund and Department. This option provides two years of actuals and current year along with commitments. When you expand Strategic Initiatives you will see only the NACUBO's that have Revenue and/or Expenditures.

D. Budget Inquiry by Strategic Initiatives with Account

- Allows you to review budget by Strategic Initiatives by selecting Fund, Department and Account. Account option lets you select various combinations, example: faculty, salary and also a budget node. This option provides two years of actuals and current year along with commitments. When you expand Strategic Initiatives you will see only the NACUBO's that have Revenue and/or Expenditures in the Account selected on top drop down option.

NOTE:

- Accounts reflect Budget Summary Tree, therefore it is in following order.
- **REVENUE**, includes Fund Balance plus Recovered Cost
- **Other Revenue**, represents Revenue minus Fund Balance and Recovered Cost
- **EXPENDITURES**, includes all Expenditures

E. Budget by Department with Graph:

- This graph represents the sources and use of the selected department for current and proposed fiscal year.
- The sources are presented by fund group (doesn't include Fund balance and Recovered cost).
- The expenses are presented by the strategic initiative of the university and could be classified by the NACUBO function.
- Strategic Initiative Category consist of the following NACUBO (program) groupings:
- To watch our training video click [Here](#). *To open the link press Ctrl and click on the blue font*

F. Group Cost Center Lookup

- On this section you can view all Group 5 combinations that are permissible for your area.
***Note, you can refer to this list when you need to select a funding source for a fund five position.

View Historical Data

View Historical Actuals: you will see historical data at a cost center level by budget node for two full years plus year to date actuals of current fiscal year.

View Historical Budget: you will see historical data at a cost center level by budget node for three years of base and proposed.

View Budget Changes from Year to Year: on this form only the change column to the View Historical Budget form is displayed allowing you to see the difference between the base and proposed budget.

View Historical Budget Balance by Entity: This form allows you to see Base and/or Proposed totals for all cost centers by department one year at a time, subtotaled by fund code.

View Historical Financials for One Year: On this form you have a drop down menu where you can select Fiscal Year, Fund Code, Department and a Program. The form is displayed by budget node.

Historical Position Search by Department: This form allows you to view historical data for positions by Fiscal Year and Department.

Historical Position Search for All Years: On this form you can search for a position and get historical data.

Historical Employee Search for All Years: On this form you can search for an employee and get historical data.

UH Budget Reference Materials

UH Budget Calendar: You can view UHS Budget Office Planning Calendar – Key Dates

UH Budget Training Manual: On this section you will find COOPLAN training manual.

UH Budget Online Training: On this section you will find training videos for Hyperion. (Video links are on page 23)

Management Report Material: On this section you will find training videos for Management Reports (You will find more information over Management Reports on the last section of this handout).

Warnings found for your COOGPLAN Data

Actuals in Previous year but no Budget	6,472
Budget FTE with no Budget Amounts	33
Budget in Current Year but no Actuals Ever	5,365

List of items this Dashboard provides:

- Provides the most current data refresh with date and time.
- Incorrect number of items to be revised.
- Days left before budget entry closes.
- A budget cycle calendar with upcoming proceedings and dates.
- A list of Financial Reports and Tableau Reports. (Remember to select either FR or Tableau reports from the drop down option).
- Provides issues found in your coogplan data. (You can double click on each individual option to get a report of the issues found in your area. This report can then be downloaded into excel).
- It also provides warnings that can potentially result in issues therefore, these warnings should be double checked to avoid issues for your area. (You can double click on each individual option to get a report of the issues found in your area. This report can then be downloaded into excel).

COOGPLAN Budget, Finance and HR Reports

The following Tableau report are designed to provide information at a cost center level for budget, actuals, HR and HR Job information with the ability to pivot and download to excel.

- COOGPLAN Finance Pivot Report
- COOGPLAN Budget Pivot Report
- HR Funding Source Pivot
- HR Job Info Pivot Report

Management Reports

1. Data Extractor Tool

Login to Hyperion through Access UH or <https://hyperion.uh.edu/workspace/index.jsp?framed=true>

1) CougarNet Username and Password

The login screen for the Oracle Enterprise Performance Management System. It features a login form on the left with fields for 'User Name:' and 'Password:', and a 'Log On' button. On the right, there is a graphic of four interlocking 3D blocks in orange, purple, blue, and green. Below the graphic is the Oracle logo and the text 'ORACLE ENTERPRISE PERFORMANCE MANAGEMENT SYSTEM'.

Copyright © 2005, 2014, Oracle and / or its affiliates. All rights reserved.

2) Click on “Explore”

3) Click on the “Management Reports” Folder

4) Click on the “Data Extractors” Folder

5) “Authentication required” window will pop-up please enter your CougarNet Username and Password.

Make appropriate selection from the following fields: –

- Fiscal Year
- Accounting Periods
- Business Unit
- Division
- Area College
- Department
- Fund Group
- Fund Code
- Budget Account Type
- Budget Account
- Budget Reference
- Scenario

After all the selections are made left click anywhere in the green box (a), click gray area on the top (b) then click the “Download” (c) button on the bottom right side of the report. Pick “Data”(d) as the file format

Management Reports/Data Extractors/Budget vs Actuals Data Extractor

To extract the results from this report, click the “Download” button on the bottom right side of the report. Pick “Data” as the file format, a new window will open and then select the Full Data tab. From there you can download the data as a CSV file. Check the box “Show all columns” to pull all the fields available in the data source.

2. How to Run Quarterly Budget Report:

- Begin by clicking on explore icon.
- Choose management reports.
- Then Quarterly Budget Report

*****Note.** There are 3 expense reports and 3 revenue reports, but they are run the exact same way. The only difference in the reports is that the Expense report has current YTD commitments. The revenue report does not have any commitments.

***If you would like an example on how to run Quarterly Budget Report please remember to reference training video mentioned on page 20.

Quarterly Budget Report

FYXX Base Budget- this column represents Base budget as it was loaded in Coogplan.

FYXX Base Budget+ self-funded ADJ- this column represents Base budget as it was loaded in Coogplan plus or minus any adjustments that were made during the year.

FYXX YTD- This column shows YTD expense or revenue for the previous year. This column is a reference point to compare current YTD actuals with the previous year actuals for compatible point in time selected.

FYXX YTD- This column shows Actual YTD information for the selected year and period.

FYXX YTD Commitments- this column represents all the commitments for the remainder of the year. (Only in Expense reports)

FYXX Full Year- this column represents full year Actuals for the previous Fiscal year.

FY Estimated Full Year- is a formula line to estimate how much will spent or collected based on actual activity of current and previous year. If the selected year is FY18 the formula would be - (FY18 YTD / FY17 YTD)*FY17 Full Year

FYXX (Under)/Over Curr Budget = FYXX Estimated Full Year - FYXX Base Budget + Self-Funded ADJ

- Begin by clicking on the explore icon.
- Then click on Management Reports
- Choose Equity Reports.

- Equity Balance report by Cost Center
- Equity Balance Report by Department
- Equity Balance Summary Report

*** **Note.** You can see the definition of the fund type selection (central or other) on the Fund_Type_Description.txt under the quarterly budget report folder.

Equity Report:

In this section we will go over the layout of the equity report: Once the report is run you will see a screen like this.

Report Criteria | Department: H0066 - Dean, Engineering | Funds: Funds | Program: All Programs
Project: All Projects | Business Unit: UH & UHSA | Fund Type: All of the Fund Types

32

****Note.

- This report is for Engineering you will see that the year you ran the report for is in the far right column. The report has 5 years of historical data that will give you context for the report. This report is sorted by Fund group and further broken out by centrally allocated or other Funds.
- To find out which fund codes are centrally funded and which are self-funded choose Fund_type_decription.txt on the quarterly budget report page and you will get a break down by fund code.
- You will see there is a drop down at the top of the report. There is equity, encumbrances, and equity less encumbrances. If you choose equity you will see the year-end equity amount. Encumbrances include all commitments (soft commitments not included) accrued during the fiscal year. The equity less commitments takes the equity and subtracts out the commitments giving you the total.
- When exporting to PDF, there is no drop-down option so it automatically creates a separate sheet for each section. Equity, Encumbrances, and Equity less Encumbrances.

4. How to Run Account Balance Reports:

- Begin by clicking on the explore icon.
 - Then click on Management Reports
 - Choose Account Balance Reports
- This will bring up 4 options:
- Account Balances Report by Cost Center
 - Account Balances Report by Cost Center – Pivot
 - Account Balances Report by Department
 - Account Balances Report by Fund

These reports run the same way, so just choose one.

H0066 - Dean, Engineering Account Balances Report by Cost Center 5 Year Historical FY14-FY18

Recommended User Preferences for COOGPLAN Planning users

- 1) Open the COOGPLAN Planning application so that all the preferences options become available:

- 2) Access the User Preferences in the Hyperion environment by going to the workspace menu:

- 3) Turn on “User Point of View” so the prompt box shows first before a FR report runs:

- 4) Change default of member display to “Alias” so the prompt boxes in COOGPLAN show the description rather than the code. Hit the “Save” button to apply the change in the setting:

- 5) Press the “OK” button at the bottom of the Preferences box to save all changes.
