

UNIVERSITY OF HOUSTON-DOWNTOWN POLICE DEPARTMENT TRAINING DIVISION

MGT -315 Critical Asset Risk Management

The Critical Asset Risk Management course teaches the critical components of risk management and provides participants the basic fundamentals of determining and mitigating risks associated with their critical infrastructure. Through a combination of lecture, facilitated discussion, and group activities, participants will learn how threats, vulnerabilities, and consequences determine risk and are given an opportunity to practice the fundamentals of conducting vulnerability assessments by conducting on-site assessments of select local facilities. Additionally, they will identify potential mitigation measures associated with their findings and work together to develop and present a risk assessment report.

Individuals completing this course in combination with MGT310, MGT414, and AWR213, are awarded the [TEEX Infrastructure Protection Certificate](#).

Target Audience

- All law enforcement
- Sector-Specific Agency managers
- Critical Infrastructure owners, operators, and managers
