We are excited to invite all law and code enforcement officers, building inspectors, city planning staff, architects, crime prevention personnel, safety and security personnel, school-based law enforcement, and those interested from the private industry, to enroll in our Crime Prevention Through Environmental Design (CPTED) class in February! CPTED strategies aim to deter criminal activity, reduce victimization, and build a sense of community among community members so that individuals can maintain control of areas, reduce crime, and minimize fear of crime.

Date: February 14 - 18, 2022

Location: University of Houston - Downtown

For more information or to register now, please visit the course's information/registration page on our website. <https://teex.org/class/sap302/>
