The WRC has specialized in online tutoring for a number of years now. We offer both synchronous and asynchronous online tutoring for students. For the first time, students can schedule appointments via EAB navigate, and you can track student utilization of our center.

The WRC is applying for CRLA Level III program certification. Every WRC tutor undergoes a rigorous training curriculum, totaling 50 hours of training.

The WRC is focusing on homegrown online resource generation this year. Direct your students to our website, so they can access helpful handouts and videos.

We would love to visit your courses to promote our services or assist you in the classroom. Contact me to schedule a convenient time.

Data illustrates that the WRC works! The average GPA of an English 1300 student who uses the WRC 3+ times is a 3.2. 90% of students who utilize our service express that the WRC makes them more confident about their writing.
